

INTRODUCING OUR BRITANNIA CUE RANGE

A select range of the the very finest hand-crafted Snooker and British pool cues. We utilise only the very best air seasoned straight and even grained North American Ash, hand spliced with an exquisite selection of some of the world's finest and most beautiful sustainable exotic timbers. Each cue is embellished with our engraved and black enamelled Mother of Pearl Britannia disc, a sure sign of quality and value.

Our craftsmen hone each cue to perfection to ensure you get the best possible cue for your game. The cues are divided into 4 distinct ranges to provide a cue to suit all abilities and great value across all price points.

The pinnacle in our sport is achieved with our steel range. Genuine no expense spared cues featuring professional performance, looks and finish. Stainless steel threaded joints and ferrules make this selection a real winner and a future investment which is sure to improve play and turn heads.

Our mid-range offering are the Britannia Champion cues. These benefit from North American Ash and spliced butts in Indonesian Ebony and Rosewood providing unrivalled value.

The Britannia Pro Range is a revolution for the serious British pool player. Our cue masters have pulled out all the stops to develop a small tipped selection perfect for the small ball game. Tip sizes from 6.5 to 7.5mm provide fantastic cueball control, coupled with hand spliced ebony butts and super-strong Ash shafts for an unmatched performance.

The Britannia club range is a selection of plain and simple machine graded Rosewood cues. Great for starters or club use. Available in different lengths to help juniors into our sport. Great value and quality.

All cues include a base of butt screw in mini butt unless otherwise stated. Optional telescopic extensions are also available on request.

BRITANNIA STEEL RANGE

Aviation grade stainless steel joints and ferrules throughout this range for improved durability and performance.

Professional standards are only attained by combining the very best materials, craftsmanship and design. Thus for our steel range, we select only the very finest graded Ash and hand splice with the blackest Gabon Ebony. The balance, feel and finish are superb in every respect. Unsurpassed accuracy of splicing. From our stunning 24 hand spliced numbered 'Limited Edition' models to the plain and simple "Black Arrow". Aviation grade steel joint and ferrule provide greater durability and accuracy without distortion to ensure sound performance for the hardest hitters and players who want their cue to last a lifetime with consistency. Professional demand means these cues are a full 58 inches long as standard (60 inch versions are often available from stock, please enquire). The mini butts included with our steel range incorporate a matching Mother of Pearl badge to enhance and add distinction to these rare and desirable cues. The consistent Grand leather cue tip is used on these superior cues, standard tip diameter is 9.7mm. However we carry some of this range in 8mm tip diameter for the British Pool Professional. Cues are naturally weighted due to the density of the Ebony used, thus weights vary from 18 to 20 oz.

Limited Edition ¾ jointed (2003) - 24 hand splices, model shown features burr yellow maple backed with black ebony veneer.
